## Bellevue Directors Were Well Pleased With Exhibition

Attendance and Exhibits Exceeded  
All Previous Records on  
Labor Day.

The annual meeting of the Bellevue Horticultural and Poultry Society was held this week, and the secretary, John Curry, reported that this year's fair was a greater success than ever, both from the point of entries and the attendance. Total entries this year exceeded last year by one hundred, and the attendance beat all records, causing the directors to consider holding a two days fair next year.

In the vegetable section, the entries were all of superior quality and exceeded the number of exhibits of last year, but in the flower section there were less entries, owing to windy weather a few days prior damaging flowers and plants that were grown in the open.

This was the first year that poultry had been included in the exhibits, and the judges remarked that it was a first rate show for the first year, and gave some helpful hints to exhibitors as to the best methods to employ in fitting birds for the show benches.

In the Arts and Industrial sections there were exhibits of outstanding merit, especially in the paintings, taxing the discernment of the judges to the utmost, so keen was the competition in this branch of the fair.

The directors of the exhibition are very desirous that other towns in the Pass take part in this annual fair, and urge those who have any intention of exhibiting to make their preparations well ahead of time. The secretary, Mr. Curry, laid special stress on the fact that towns which cannot produce as good flowers or vegetables as those lower down the Pass might make up for this in their poultry exhibits, which made such a fine showing at this year's exhibition. Commenting on the general results of the exhibition, he stated that everything went off fine.

### St. Alban's Church

Saturday, Sept. 24, whilst drive at the parish hall at 7:30 p.m.

Sunday, Sept. 25, Sunday school at 2:30 p.m., evensong at 7 p.m.

Harvest festival will be observed on Oct. 9, of which further particulars will be given next week.

—A. D. Currie, Incumbent.

## Conservative Delegates for Macleod Federal Riding Appointed

R. F. Barnes attended the meeting of the Conservatives of the Federal riding of Macleod, held at Macleod on Friday last when the following delegates were appointed to attend the national convention of the Liberal-Conservative party to be held in Winnipeg on Oct. 10: John Herroon, of Pincher Creek; J. D. Matheson, Macleod; H. M. Shaw, Okotoks and High River; J. R. Watt, Claresholm; John Kerr, Passburg.

Alternates: J. B. Allison, Granum; F. Morris, Macleod; H. Gilroy, Macleod; C. W. Stewart, Claresholm; Mrs. John D. Matheson, Macleod.

The constituency was well represented and very enthusiastic, the Hon. R. B. Bennett being given a rousing reception.

## Big Attraction at Palace Theatre for Saturday

"Tell It To The Marines," a gripping picture in the week-end feature for the Palace. To those who have seen Lon Chaney in another celebrated picture, "The Hunchback of Notre Dame," he will need no introduction for his wonderfully clever acting. In addition there will be the Fox News and a comedy.

## Fernie and Michel Tennis Players Inter-Club Games

Members of Fernie and Michel tennis clubs visited Coleman on Sunday, taking advantage of the exceptionally fine weather to play a few rounds. Seven events were played, Coleman winning four.

The courts were in splendid shape and there were some excellent games played. The scores were:

Men's Doubles—Lindoe and Barnes defeated Auld and Shand, 6-4, 1-6, 8-6.

McDonald and Shone defeated Bonar and Walls, 6-2, 1-6, 6-4.

Rippon and Watts lost to Shand and Bonar, 6-3, 6-2.

Men's Singles—Lindoe lost to Auld, 4-6, 6-4, 6-3.

Graham lost to Walls, 6-4, 4-6, 6-4.

Barnes beat Bonar, 6-4, 5-7, 6-2.

McDonald beat Shand 2-6, 8-6, 9-7.

If the weather is fine it is probable that Coleman players will return the visit to Fernie next Sunday.

B. Bromley returned this morning after a visit with friends at Medicine Hat.

## Regular Meeting of Council Last Week

Proposal for Lighting System in  
Business Section of Town is  
Being Negotiated

A regular meeting of the town council was held on Wednesday, Sept. 14, Mayor Wm. Burns presiding. Minutes of the previous meeting were passed on motion of Cr. Fraser.

A request to the council by Robert Jones and Thomas Maunell for permission to erect a dance hall and refreshment stand near the dam at Crow's Nest Lake, was negatived by the council, and the letter sent on to the town council at Blairmore. This land is under joint lease by the town of Coleman and Blairmore, and the council is not in accordance with the request of the applicants.

Nick Banda, a patient in the Central Alberta Sanatorium, Calgary, wrote through his solicitor, R. F. Barnes, that he is unable to protect his property in town, against which a caveat has been filed. The town is bearing the cost of support of Banda and his wife and child, Mrs. Banda being also a patient in the San, and the child being cared for by the Salvation Army in Calgary. In order to offset the cost, the town will rent Banda's house in town and allow the revenue to offset the cost of the family's maintenance.

Cr. Jas. Moore gave notice of motion that at a special or regular meeting he would bring in a bylaw as an amendment to the present licensing bylaw, to deal with Chinamen who as itinerant traders come into town and sell fruit which is not grown by themselves, but is shipped in from other districts.

Mayor Burns reported having appointed Dr. Borden as medical health officer, in accordance with instructions by the council some weeks ago, and his action in having posters printed concerning quarantine regulations was endorsed by the council, on motion of Crs. Moore and Pattinson.

The council as a whole was appointed as a local board of health. The 1927 assessment will be confirmed, subject to the changes made at the Court of Revision on September 14, on motion of Crs. Fraser and Nelson.

Notice of motion was given by Cr. Fraser that he will bring in a bylaw for striking the rate of taxation for 1927, at the next meeting of the council.

A bylaw for the borrowing of \$1807.50, for a term of three years with interest at 5 per cent, was given its third reading. The council is borrowing this sum from Coleman school district to pay the town's share of the cost of improvement around the school grounds, the school board bearing an equal share of the cost. The final reading was passed on motion of Crs. Pattinson and Fraser.

A committee was also appointed to interview the business men and the Coleman Light & Water Co. in regard to installing a lighting system on Main street. This committee has since reported that the business men will stand the cost of the lighting, if the town or the light company will bear the cost of installation, and the matter is under discussion with the company.

A number of accounts were paid, following which the council adjourned.

Yesterday afternoon the half holiday was taken advantage of by a large number to enjoy trips to the various points of interest in the district.

## Cause for Indignation

Being awakened about 4 a.m. on Monday morning by her dog barking, Mrs. Fraser, living on Sixth street, went downstairs to find a cow on the front verandah, which had not only played havoc on the lawn, but had also broken the flooring of the verandah.

The absolute disregard with which the owners of horses, cattle and other stock allow them to run at large within the town limits is the cause of many complaints, and drastic steps are required to compel the owners to observe the law.

## The United Church

The special events in the United Church last week were a real success. On Thursday evening the members of the Women's Missionary Society made a special event of their regular meeting and invited the associate and home helpers to the gathering. A special program was arranged and a very enjoyable and well attended meeting concluded with a social half hour at which tea was served.

On Friday evening Rev. G. G. Bonpas, one of our missionaries from China gave an illustrated lecture on his work in that country. There was a good attendance. The lecture even to those to whom the topic was by no means novel was of real interest and full of information. The offering was devoted to the missionary funds of the church.

The Ladies Aid held a sale of home cooking on Saturday afternoon and along with it served afternoon tea. This was well patronized and will probably be the last of their affairs until the winter sale of work.

Rally Day was kept on Sunday morning, the school and the congregation uniting. The order of service was supplied by the Toronto office and was perhaps the best ever issued. This service was most happy and helpful.

## Whist Drive and Dance

The opening whist drive and dance of a series to be held during the winter by the Rebekah Lodge will be held on Saturday evening, commencing at 8 o'clock, followed by a dance. Good music will be furnished and everybody is welcome. These gatherings will be held every Saturday evening till further notice, in the I. O. O. F. hall.

## Dramatic Recital on Tuesday Next

Noted Artist Will Appear in the  
United Church in Character  
Readings and Impersonations

The recital to be presented by Miss Theresa Siegel on Sept. 27 promises to be of unusual interest. Miss Siegel is without question the premier entertainer in her field in the west. She is now beginning her ninth annual tour through Southern Alberta and British Columbia. In this district she is appearing at Blairmore and Coleman. The program to be presented here will appeal to both young and old. Tickets are already on sale and should be procured as soon as possible as the seating capacity of the church is limited. Miss Siegel is appearing under the auspices of the United Church.

Mr. Alfred Phillips will contribute songs and Mr. Sidney White violin solos. Mr. Phillips sang over the radio in Vancouver recently.

## 200 Millions of Dollars Lost Annually to Canadian Coal Trade

Immense Loss to Canadian Industry is Causing Business Interests in Dominion to Try to Remedy Existing Conditions

In a special despatch from Winnipeg to the Calgary Herald, it is stated that serious concern is being displayed by business interests of Winnipeg in the effort to secure a coal rate on Alberta fuel to eastern points that will keep the western mines open and keep at home the millions annually diverted to the United States for the quality of coal declared to be in many respects inferior to the western product.

In a double column editorial, The Tribune urges on national grounds that the railways, mine operators and railway commission get together on this grave subject at once and concludes this advice:

"At the present time two hundred millions of dollars of Canadian money are expended annually in the purchase of coal from the United States. It should be a matter of national concern to keep as much as possible of that money at home. The balance of our trade with the United States is heavily to our disadvantage. Every effort, therefore, should be made toward equalizing the situation by stimulating the sale of Alberta coal in eastern Canada. The national benefit of such a course should be apparent to all, even though the Canadian government railway system might not make a cent of profit out of the business."

## Local Fans All "Het Up" on Championship Fight

Majority of Fans Favor Tunney's  
Chances of Retaining World's  
Championship Honors

The whole world will be agog today with mild excitement awaiting the outcome of the Tunney Dempsey prize fight, and it is safe to say that no prize fight has excited such world-wide interest as this contest for the championship, in which the former champion, Jack Dempsey, seeks to regain the title which he lost to Gene Tunney last year. Coleman fans are today getting their radio sets in shape for the broadcasting to night, and many varied are the bets around town from cigars up to the skies. The majority of sports writers favor Tunney's chance of retaining the title, but the result is as uncertain as a horse race.

## St Alban's W. A. Notes

The next meeting of the St. Alban's Women's Auxiliary will be held at the home of Mrs. J. Ashbridge, 2nd St. E. on Thursday, Sept. 29, at 7:30 p.m.

W. A. members please note the date.

The regular meeting will be held as usual the first Thursday in October in the Parish hall.

## Remington Portable Typewriters

These very useful machines may now be secured at The Journal office, and without doubt they are the finest portable typewriting machine on the market. With the latest improvements, they will do the same work as larger standard models, and cost only half the amount of the larger machines. They are very easily carried around and are just the thing for either the office or the home. These machines can be seen at The Journal office, and immediate delivery can be made to any person desiring to purchase.

They are supplied on terms or for cash.

Ruth Morrison is the happy possessor of a fine German police dog, which she received as a birthday present from her parents.

Mrs. D. Gillespie has been suffering during the past week from an injury to one of her eyes caused by a knitting needle, which has caused her a great deal of pain.

## Valuable Silk Cargo in Railroad Wreck at Fraser River

Five Cars of Silk Valued at Million  
and Half Dollars Run Off  
Ledge Into River

Five carloads of silk fell into the Fraser river yesterday near Yale, on the line of the Canadian Pacific Railway.

Six million dollars' worth of silk arrived early yesterday morning from Japan, and within two hours was placed aboard a train of 16 cars and speeding eastward.

The train got into trouble just beyond Yale, where the tracks run along a ledge overlooking the Fraser. The locomotive and six cars passed safely, but a fractured rail caused 10 cars on the rear of the train to leave the tracks. Five of the cars went into the river and the others are stated to have been overturned.

The five cars probably carried \$1,500,000 worth of cargo, part of which can be salvaged if the silk is got out quickly and the cars are not swept away. This is the first accident to a silk train on the C. P. R. during 20 years' operation of such special trains, carrying \$30,000,000 worth of silk monthly.

No person was injured. Telegraph poles were torn out and all C. P. R. wires at this point were lost for several hours.

Ideal September weather is now being enjoyed by southern Alberta, and it is living up to its good reputation.

## FOR SALE

Five Roomed  
Plastered House  
In Good Location

This building is the best buy in town at the price. Would yield a good return for investment.

Apply to the  
JOURNAL OFFICE

## For Sale

Grand Theatre Property

NO REASONABLE OFFER REFUSED

Owner Quitting the Business

Building not to be used as a Theatre again

Address all communications to

P. O. BOX 192 - COLEMAN, ALTA.

## DOMINION NOW HAS A SEAT ON LEAGUE COUNCIL

Geneva.—Canada and Cuba were elected to the League of Nations Council. Three seats were to be filled, and Finland got the third.

Canada, Cuba and Finland will sit for three years on the council, which now is composed of 14 members. The other members are Great Britain, France, Italy, Japan and Germany, which hold permanent seats in perpetuity, and China, Colombia, Chile, Rumania, Poland and Holland, who are non-permanent members.

The new line-up means that the council contains four countries representing the American continent and has created special interest among many delegates because of the particularly friendly relations existing between Canada, Cuba and the United States. From another standpoint the election caused interest of an equally Canada is a member of the British Empire. Hence, in the view of numerous delegates, the importance of the British Empire as a factor in the increased, although the general impression exists that Canada will act absolutely independently, insisting upon her sovereign rights as an independent member of the League of Nations.

The three new members will take office immediately, replacing Czechoslovakia, Salvador and Belgium, whose term has expired.

Presumably Senor Casimiro Landrau will represent Canada on the council. He was president of the 1925 Assembly; he speaks English and French with equal fluency and is popular in Geneva political circles.

Dr. Aristides Aguerre Belhacourt, Minister to Berlin, probably will be the choice of Cuba. He has long been one of the most prominent figures in league activities and served as president of the recent International Conference on Transit and Communications.

Canada won her victory by a narrow margin, getting 26 votes or one more than the necessary majority. Cuba led the poll with 40 votes, and Finland came second with 23.

## No Alberta Coal For Ontario

Finding Of Rail Commissioner Will Make Price Prohibitive

Calgary.—The finding of the commission that once all hope of sending Alberta coal to the Ontario market, said Jesse Gouge, Drumheller coal operator.

Mr. Gouge said that the \$12.20 per ton mentioned as the "lucrative cost" plus the element of profit would have to be added to the actual cost of coal which at \$7.75 per ton would bring the figure to \$15.25. To that again would have to be added the profit of the retailer in Ontario which would run from \$2.50 to \$3 per ton. "That would make," he said, that Alberta coal would cost the Ontario consumer \$18.45 to \$18.95 per ton, at which figure it would be placed entirely out of court, as American anthracite coal was being sold from \$15 to \$16 a ton.

"There is now no hope of capturing the Ontario market for Alberta coal," said Mr. Gouge, "as this could not be done unless there was a rate rate of \$1 a ton established."

## Insured For Millions

187 Persons in U.S. and Canada Carry Heavy Policies

New York.—The lives of 187 persons residing in Canada and the United States were covered for \$1,000,000 or more each, to insure against death, according to a survey made public by the Spectator Company, of New York. Rodman Wanamaker, merchant heads the list with \$5,000,000 in policies. Several persons including Dr. F. C. Huntington of Toronto, discoverer of insulin, are insured for \$5,000,000 each.

**Farmers Seek Representation**  
Whitby.—Appointment of a western farmer to the Board of Railway Commissioners in place of Commissioner of Agriculture communications forwarded to the federal government. The council also has suggested the membership of the board should be enlarged to seven, and that at least three members should be from Western Canada.

The most illiterate country in the world is India, where 94.8 per cent. of the natives can neither read nor write. Egypt and Guatemala have 82.3 per cent. illiterate.

W. N. U. 1639

## Good-Will Between Canada and U.S.

No Room For Distrust Says Hon. William Phillips

Ottawa.—There is no place for distrust or misgivings between Canada and the United States, declared Hon. William Phillips, U.S. minister to Canada, in the course of a stirring address to members of the Canadian Club, and delegates to the annual conference of the Association of Canadian Clubs, at a luncheon here.

"It is an easy matter for us to understand one another," he said, "because our interests touch at some points and because already we are thoroughly well acquainted. We are in no sense foreigners to each other, yet we still have much to learn, one from the other. Already we have gone a long way on the road toward mutual co-operation but we still can go even further."

"Much of the horrors and sufferings of the world have been avoided in the past if nations had only found the courage to approach their international problems in an attitude of reasonableness and fair play."

"With diplomatic relations well established and with good-will manifest everywhere, Canada and the U.S. are ready, I hope, to discuss all questions of mutual concern, as they arise, cheerfully and frankly, and in a spirit of helpfulness. In so doing we shall become the happier illustration of what we hope civilization has in store for the entire world. For between two countries there is no place for distrust or misgivings."

## Liable to Dumping Duty

New Ruling On Imported Apples Has Been Issued

Ottawa.—Imported apples have been declared liable to dumping duty. A ruling issued by the Department of National Revenue holds that apples are to be considered as a class or kind produced in Canada until otherwise ordered.

This means that a special (or dumping duty) in addition to the regular duty, will be applied to imported apples. Dumping duty will be added in difference between the appraised value and the purchase price but not exceeding 15 per cent. of the appraised value.

## Typhoon Devastates Japan

Four Hundred Dead and Many Injured By Tidal Wave

Tokyo.—Four hundred persons are dead, 2,300 injured, and 700 houses destroyed in Yamaguchi, island of Kishiu, in consequence of the typhoon and tidal wave, according to reports to the Japanese home office. In Fukuoka, Nagasaki, and Kanagawa prefectures there were few casualties, but numerous houses were inundated and damaged.

When the typhoon struck Tokyo several thousand houses in the low-lying sections were damaged. Thirty children were injured when the roof of a schoolhouse was blown off.

## Flee From Earthquake Area

Tourists Along Black Sea Coast Crowd All Trains

Moscow.—Thousands of panic-stricken tourists along the Black Sea coast were crowding all means of transportation in order to escape from the district which has been shaken by earthquakes in the past few days, causing death and injury in many districts. Reports from Yalta say that 13 persons have been killed there and 325 injured. Slighter shocks were still continuing in the region, the advice said. Relief measures are under way.

**Should Lead the Way**  
Geneva, Switzerland.—The United States, France, Germany, Japan, Italy and the other drug manufacturing or producing countries should lead the way in curtailing the output of narcotics in the opinion of Colonel Daniel W. MacDonough of Boston, technical adviser of the Peruvian government, as expressed on behalf of Peru before the League of Nations social welfare committee.

**Farmers Killed By Airplane**  
Portsmouth, Ohio.—When a passenger airplane, just taking off from a new airport, struck the farm wagon near Norman Hopkins, 26, farmer, was killed. Hopkins' two sons, Glen, and Edward, who were riding in the wagon, were injured.

**Next Meeting At Edmonton**  
Suffit John, N.R.—Edmonton, Alta., was chosen for the annual meeting at the close of the annual meeting of the Associated Women's Compagnons Dances of Canada here. J. Sterling, of that city, was elected vice-president.

## For Outpost Work

Miss B. H. Terry, R.N., Toronto, Ontario, nurse, left recently to begin work at the new medical outpost, All Saints' hospital, Aklatik, North West Territory, which has been opened under the auspices of the Mackenzie River diocese of the Anglican church.

Miss B. H. Terry, R.N., Toronto, Ontario, nurse, left recently to begin work at the new medical outpost, All Saints' hospital, Aklatik, North West Territory, which has been opened under the auspices of the Mackenzie River diocese of the Anglican church.

## POSTAL DEFICIT MUCH SMALLER THAN EXPECTED

Ottawa.—Reduction of postal rates provided by the budget of 1926 has resulted in a deficit in the Post Office Department, but it is about a million dollars less than was originally estimated.

For the fiscal year which ended March 31 last, the return was better made up and the deficit is placed at \$1,600,000. The estimated shortage was about \$2,600,000.

It would appear from these figures that the reduction in the letter postage from three to two cents per ounce has increased the volume of letters passing through the mails.

Simultaneously, a marked increase in the parcels post is recorded, and a big business is being done. Despite the one-third cut in the letter rate the result of the operations under the new conditions leads to the belief that in a year or two at least equilibrium will be established between postal revenues and expenditures.

## Exodus Not Serious

Only Ten Per Cent. Of University Graduates Go To States

Winnipeg.—The exodus of Canadian university graduates to the United States is not as serious as it is held to be in some quarters, according to Sir Robert A. Falconer, president of Toronto University, in an interview here.

"I went into the matter quite carefully at one time," Sir Robert said, "and I found that, according to figures I got from various universities in Canada, the emigration of graduates did not exceed 10 per cent." Sir Robert added that this exodus "is not such a terrible thing as some people imagine; it supplies an outlet for the graduates. No one, he said, would bother to obtain a university education if they did not get the opportunity to use it."

**Sittings Of Railway Commission**  
Ottawa.—The Board of Railway Commissioners announced the following dates for sittings in Western Canada: Saskatoon, Oct. 10; Edmonton, Oct. 12; Vancouver, Oct. 19; Victoria, Oct. 22; Nelson, Oct. 24; Lethbridge, Oct. 27; Calgary, Oct. 28; Regina, Oct. 31; Brandon, Nov. 1; Winnipeg, Nov. 3; Port William, Nov. 5.

**More Settlers For Lethbridge**  
Lethbridge.—The Canada Colonization Association has been so successful in the Lethbridge district that it has been decided to place another 25 families there this fall. The fall of the present settlers has placed 120 acres in sugar beets, 58 acres in potatoes and 400 acres in wheat and other small grains from which his returns this fall should be close to \$15,000. There are eight families now working for him.

**Indian-Paleface Romance**  
This little lady is evidently attracted to the small Indian boy and perhaps even more to the gorgeous and unusual house he lives in—a typical Sioux Indian Tepee. So she has mastered her shyness and is tempting him with a few candies. The little Chief is nothing loath to be tempted and meets her more than halfway. This pretty little incident occurred during the great Indian Day Celebrations at the Bad Springs Hotel recently and was duly registered by a C.P.R. photographer.

## TAKE MEANS TO PUT AN END TO CUSTOMS FRAUDS

Ottawa.—"We have had some evidence brought before us to indicate that in certain quarters there would be a revival of illegal practices once our commission ceased to exist. For the benefit of such parties and others similarly disposed I think I can promise that other means will be devised and rigidly enforced for detecting such frauds, and that for the future when such frauds and illegal practices are discovered, they will be visited with swift and relentless punishment."

The above was one of the statements made by Chief Commissioner J. T. Brown, of the Royal Customs Commission, in a brief address at the close of the public sittings of the commission here.

"No doubt there have been some who have been guilty of defrauding the Crown of its just revenue and who have escaped the scrutiny of our investigators," he continued. "For such let me say that the mere fact that they have thus far escaped exposure and prosecution does not give them any assurance that such practices can be continued with impunity."

The chief commissioner's closing address, which was concurred in by the following commissioners, W. H. Wright and Ernest Roy, expressed deep appreciation of the work done by counsel, auditors and others associated with the work of the commission during the many months of inquiry irrespective of the report which would be prepared and submitted to the Governor-in-Council, the investigation had been worth while, said the chief commissioner.

"Two things above all appear to have been necessary under the circumstances," he said. "In the first place, an exposure of conditions as they actually existed both inside and outside the service, with an awakened and enlightened public conscience on customs matters as a result. The work of the parliamentary committee and our commission has made the exposure fairly complete. In the second place, it is essential to have a head to the department with the ability, will and determination to bring about the necessary reforms. There is every indication that the present head of the department is such a man."

## Projected Flight Cancelled

American Globe Circling Trip To End At Tokio

Tokyo.—The projected flight of the American monoplane, *Puffin*, of Detroit across the Pacific on its globe-circling tour was called off here by its pilots, Edward F. Selous and William S. Brock.

The decision to call off the flight followed a lengthy conference with aviation experts here and others interested in the undertaking. Many telegrams from America urged the fliers to stop at Tokyo also carried word that the present head of the department is such a man.

They will take an early boat for the United States and have their monoplane shipped home.

**More Settlers For Lethbridge**  
Lethbridge.—The Canada Colonization Association has been so successful in the Lethbridge district that it has been decided to place another 25 families there this fall. The fall of the present settlers has placed 120 acres in sugar beets, 58 acres in potatoes and 400 acres in wheat and other small grains from which his returns this fall should be close to \$15,000. There are eight families now working for him.

## Fast Steamer 'Plane Service Is Planned

Would Cross From New York To France In Four Days

New York.—The New York Herald-Tribune says that plans are nearly completed to launch an all-American combination steamship-airplane service between Montreal Point, Long Island, Plymouth, England, and Havre, France, with fast ocean liners that will make the crossing in four days.

The proposed line is to be incorporated as the New York, London, Paris Steamship Company, and will operate a fleet of ten 20,000-ton liners. The ships, which will resemble United States naval destroyers but about twice their size, will be driven at an average speed of 21½ knots, but capable of attaining 25 knots. They will be about 800 feet long with an 80-foot beam and a draft of 24 feet 8 inches. The new liners, to be used exclusively for passengers, will carry 400 first-class, who will be accommodated in small cabins, slightly larger than Pullman car drawing-rooms.

## Victim Of Experiment

Scientist Meets Death While Testing Effect Of Anesthetic

Manchester, Eng.—A victim of his own scientific zeal, Dr. Henry Lawson Wilson, surgeon and anesthetist with a British and American reputation, was found dead in his laboratory. His wife discovered the expiring man when she went to turn off a machine which administered gas mixtures.

It had been Dr. Wilson's great ambition to obtain and prolong the anal state, which is obtained momentarily when a person under an anesthetic loses feeling yet retains consciousness.

Dr. Wilson's brother said the doctor helped to lead himself will try to prevent himself from being unconscious completely. Colleagues are of the belief that he met death experimenting on himself to discover the actual effect of an anesthetic, which it was his conviction was the only way to obtain essential data.

## REQUIRE MORE TRADE ROUTES FOR THE WEST

Vancouver.—"If Canada is to achieve her proper destiny as a great nation, the people of all sections of the country must realize that new trade routes must be established and hardy new settlers, no matter what the climate, be brought in to develop the vast wealth stored in the greatest northern hinterland," Premier James G. Gardiner of Saskatchewan declared in an address before the Canadian Chamber of Commerce Convention here.

"All Canadians must get a vision of what the 20th century has in store for us, then put our shoulders to the wheel and push on to the destiny that is ours," said the Premier of Saskatchewan, 25 years ago a penniless homesteader from Ontario, thrilling his 200 auditors with his picture of the Canada to come.

"The most disconcerting question which can be introduced into discussions, national or international, is the proposal to change trade routes," Premier Gardiner pointed out. "Some of the greatest wars in history have been fought on that issue. I would say to those interested in opening the Pacific route—and why should it not be opened?—to those interested in opening the Hudson's Bay route, do not expect that those now operating on the established trade routes are going to admit lightly that new routes will not operate to their advantage. Do even should they do so that their opening will redound to the national interest."

Railway development in Canada was a thing of the future, not of the past, declared the great lines already constructed. Mr. Gardiner believed.

Seven-eighths of all wheat entering into international trade, was produced in Canada at the present time, he said. This meant, he explained, that the prairie provinces with a population of less than 2,000,000 were feeding 60,000,000 in other countries. Yet only one-third of the land capable of growing grain had been brought under cultivation so far.

When the great remaining open spaces were populated there would be more than enough business to keep every part in the country busy for years, he said. The future was predicted, and Vancouver, free for all year and sole outlet for a great producing region, would be one of the greatest commercial centers in the Dominion.

## CANADA MAY DECIDE TO APPLY A QUOTA LAW

Ottawa.—Renewal of the agreement between the department of immigration and colonization and the Canadian railway and steamship companies by which the latter secure transport and place immigrants in Canada has not yet been accomplished for the coming year. Negotiations are still in progress, according to the officials of the department.

While no official declaration on the subject is obtainable it is believed that there will develop considerable opposition to inclusion in the coming year's agreement conditions similar to those of the agreement now about to expire. The view of the present minister of the department, Hon. Robert Forke, have been frequently intimated.

Wholesale immigration without regard to the present state of the country and its industries for assimilating those admitted to the Dominion is not viewed with favor by Mr. Forke. He is, rather, a believer in the maintenance of a close balance between immigration and employment.

Holding such views it is believed to be certain that there will be some modification in the next agreement with the transportation companies. There will be more insistence upon proper placement by those companies of the people they bring to Canada and probably some further restriction imposed upon the selection of prospective immigrants by the agents of the companies.

In some quarters as much opposition has developed to indiscriminate immigration from countries other than the British Empire, the United States and France.

The September bulletin of the Royal Bank of Canada has the following to say, in part, on immigration:

"The people who are granted admission will be the fathers of the future. Wise selection is the only means of controlling the future citizenship of the nation. It is a matter of satisfaction that so large a proportion of those who are arriving should be of British stock. Naturally, it follows that the best of opportunities must be provided for the younger people who are already here, so that they will not be interested in going elsewhere. Under such circumstances, the policy of admitting newcomers only as rapidly as they can find satisfactory employment is the one most likely to maintain a steady, healthy expansion of the country."

## Woman Drowned At Sea

Carried Over Side—British Liner

Philadelphia, Pa.—Cyril H. Mumford, 30, of Fair Acres Farm, near Hamilton, Ontario, was swept overboard from the deck of the British liner *London* yesterday, while the vessel was en route from England to this city.

The tragedy was revealed when the vessel docked here, bringing a tale of sorrow by the loss of the husband and three children of the woman.

Mr. Mumford, a former British army officer, was returning with his family from a tour of England, Scotland and France when Mrs. Mumford, who had been on an upper deck of the vessel, was carried over the side by a buoyant.

## Proposals To Outlaw War

New Idea Presented To League Of Nations Delegates

Geneva.—A revolutionary international arbitration pact was introduced at a session of the League of Nations assembly commission on disarmament by Dr. F. Nansen, of Norway. The pact was presented as the basis for concrete development of the movement to outlaw war.

The pact makes war between nations impossible by attaching punishment by an arbitration board of all conflicts which are not handled by the World Court or are not set out by the Council of the League of Nations.

**Royal Brothers Arrive Here**  
Southampton, Eng.—The Prince of Wales, looking very bronzed and fit and in excellent spirits, stepped ashore from the Empress of Scotland here, ending his trip in America. He was accompanied by Prince George. The Mayor of Southampton and other city and county officials welcomed the two princes, who immediately boarded the train to London.

THURSDAY, SEPTEMBER 22, 1927

### They Came and Saw

The visit of the Mining and Metallurgical Congress on Friday, Sept. 9, was marked by an enthusiastic reception by the towns in this district. Citizens co-operated with the committee of the Rocky Mountains branch of the Mining Institute, and not only gave pleasure to the visitors, but enjoyed showing them around this section of the Pass. Nature has endowed this section of Alberta with beautiful scenery and man has provided good roads, so that driving the visitors to the various points was indeed a pleasure. With the excellent weather conditions prevailing, everything combined to make the day ideal and a very favorable impression was created in the minds of the large party of ladies and gentlemen, the majority of whom were making their first visit to the Rocky Mountains.

Not only do the visitors on a tour such as this desire to gain information on industrial and mining development, but they also are anxious to secure first-hand information of local conditions by meeting the people and exchanging views. What may seem commonplace to ourselves is new and of interest to them, and it is the personal contact which they are able to obtain in the smaller centres which make their visits so much more enjoyable than in the larger cities, for, as one visitor remarked, we are swallowed up in a big city, whereas in the smaller places we have the opportunity of meeting the people and obtaining all the information that we can absorb.

Hospitality extended to visitors from all parts of the Empire and other countries as they tour throughout Canada undoubtedly furnishes many pleasant recollections after they reach their homes and adds immeasurably to the all-round value of their experiences.

\*\*\*\*\*

### Carelessness in Driving

The increasing number of deaths caused by careless autoists is a matter for grave concern, and emphasizes the necessity for more stringent regulations being enforced as to who shall drive cars. There are undoubtedly thousands of drivers who in an emergency would not know just what to do to avert an accident, for licences are issued without any safeguard as to the ability of an applicant to operate a car without danger to the public. A move has been made in some provinces and States to prevent a person driving for a stated length of time if convicted of causing damage or death by carelessness, and it would appear that even more drastic punishment is required when one reads of lives being snuffed out by drivers who either from sheer carelessness or inability to think and act quickly are a menace to the public at large.

As a means of modern transportation the automobile has become indispensable, but provisions for the safeguarding of the public have not kept pace with the rapid increase in the use of cars.

\*\*\*\*\*

### Labor Leaders Complain

A delegation of the Canadian Labor Party, headed by P. M. Christophers, M. L. A., C. L. Gibb, M. L. A., and George Latham, recently met Premier Brownlee in Edmonton and complained that the mine exams. are too easy. They stated that the examinations have been given too rapidly in some places, and the examiners have not been sufficiently exacting in requiring all miners to have an understanding of the English language.

The complaint is to be taken cognizance of and an investigation held by the Government before Oct. 1, as under an amendment to the Mines Act passed at the last session of the legislature, new clauses go into effect by that date and there are at present men holding certificates which the labor delegation claims were given without sufficiently careful examination. In view of the fact that mining is a hazardous occupation, it is very important that risks of accidents or disasters be reduced to a minimum, and one way in which to prevent them is to make sure that those who are granted certificates fully appreciate the importance of what these examinations mean.

## That Settles The Matter Of What The New FORD Will Be Like

Absolute knowledge have I none  
But my aunt's washerwoman's son  
Heard a policeman on his beat  
Say to a laborer on the street,  
That he had a letter last week  
Hand written in the finest Greek  
From a Chinese coolie in Timbuctoo  
Who said that a son in Cuba knew  
Of a colored gent in a Texas town  
Who got it right from a circus clown  
That a man in Klondike got the news  
From a gang of American Jews  
About some fellow in Borneo  
Who knew a man who claimed to know  
A hermit who lived beside a lake  
Whose mother-in-law will undertake  
To prove that a friend's sister's niece  
Has stated in a nicely written piece  
That she has a son who knows about  
The date the New Ford Car comes out.

BUT—  
It will be a hummer when it comes out!  
AND—It will be money in your  
pocket to wait until it does come out.

IT WON'T BE LONG NOW!

## Here and There

One year from date of publication  
in the Canada Gazette new regula-  
tions requiring the inspection and  
grading of fruit for exportation  
come into effect. They will require  
that all fresh fruit must be inspected  
and an export inspection certificate  
issued showing the grade before  
leaving the country.A record was established at Que-  
bec recently with nine passenger  
vessels arriving and landing pas-  
sengers and mail, the largest num-  
ber ever to visit the port at any  
one time. Included in the arrivals  
were the "Empress of Scotland,"  
the "Montclair," "Montclair,"  
"Marion" and "Mellie" of the  
Canadian Pacific Steamships.A new high record of \$15,824-  
821 in gold production of the pro-  
vince of Ontario during the first  
half year is shown in the re-  
port just out, the increase over the  
similar period of last year being a  
quarter of a million. During the  
same half year the total production  
of all minerals in Ontario was \$45,  
103,223, as against \$42,584,402 for  
the same half year of 1926.To serve the interests of hundreds  
of farmers in Southern Saskatchewan  
operation on September 1st, accord-  
ing to announcement by D. C. Cole-  
man, Vice-President, C.P.R. The  
longer of the two lines run from  
Assiniboine south to Coronach, a  
distance of 59 miles, and the second  
a 27-mile stretch, runs from Brom-  
head to Lake Alma.The 100 members of the British  
Newspaper Society left Canada  
thoroughly impressed with the op-  
portunities Canada possesses. Their  
impressions are that Canada was  
already great and is potentially  
much greater, and they were am-  
azed that so much could have been  
accomplished in Canada in such a  
short time by so few people. They  
sailed from Montreal on the Cana-  
dian Pacific Steamship "Mont-  
clair," the ship having a large pas-  
senger list.After a strenuous six weeks trav-  
elling across the Dominion of  
Canada, Their Royal Highnesses,  
the Prince of Wales and his brother  
George, embarked on the Canadian  
Pacific Flagship, the "Empress of  
Scotland," fired but happy. Prince  
Edward says, "Every time I come to  
your country I am more and more  
attracted by the wonderful natural  
scenery and the warmth of the wel-  
come extended by Canadians, and  
that it will not be long before  
we meet again."Approximately 1,000 members of  
the American Legion visited Mont-  
real on their way to Paris, France,  
where they will hold their 9th an-  
nual convention. The people came  
from Idaho, Buffalo, Waco, Wash-  
ington, Montana and North  
and South Dakota. Frank X.  
Schwab, mayor of Buffalo, gave the  
Legionnaires of that city a wild  
buffalo to be presented to the citi-  
zens of Paris. They crossed to Ant-  
werp on the "Montclair" and  
"Montroyal," both liners in the  
Canadian Pacific service."A land of good wages and un-  
limited possibilities," is the man-  
ner in which Premier Stanley Bald-  
win characterized Canada in his first  
public address in the Old Country  
after his return from the Domini-  
on. Ninety-five per cent. of the  
men (of whom 35 are too much)  
who go out to the Dominion and  
fail, owe their failure to them-  
selves. I have no doubt that a man  
can succeed on the land there even  
if he has not been brought up in  
the country at home. A little train-  
ing will go a long way."

holme Agricultural school.

## Order Cards Now!

The Journal would be pleased to  
receive orders for personal greeting  
cards for the Christmas season.  
Orders may be given now and the  
cards delivered any time prior to  
Christmas to suit the convenience  
of the customer. We have several  
sample books with a wide variety  
of the latest cards, and a sample  
book will be left at your home to  
enable you to make a selection.  
Phone 200.The picture "Beau Geste" shown  
last week-end at the Palace drew  
large audiences, and the story was  
cleverly filmed. The picture is  
quite out of the ordinary, and to  
many conveyed a note of sadness in  
the unhappy ending of two of the  
principal characters of the play.  
From an entertainment point of  
view, it held the intense interest of  
the audience throughout.People look through the local  
paper for news of the stores and it  
will pay to have an advertisement  
in The Journal.

## Personal and Local

Mrs. Siegel will give her reading of Van Dyke's story "The Manhood" at the morning service in the United Church. This should ensure a full church. Children are especially invited to this service. The reading will take the place of the regular sermon. There will be a special musical number also.

Alex. M. Morrison went to Calgary by train on Saturday, returning on Monday by auto.

The Salvation Army harvest festival was marked by a splendid showing of vegetables of all kinds which were brought in as thank offerings.

The Ladies Aid of the St. Paul's United church will hold a bazaar in the club room on Saturday, Nov. 26. Everybody welcome.

J. Rushton is spending a few days on business in Calgary.

Look up the advt. of Coleman Garage in this issue on page 4.

Mrs. R. Easton left this week to visit her daughter, Mrs. Malcolm Morrison at Drumheller.

The mine rescue car has been parked on the siding here during the past week.

O. E. S. Whiteside was a business visitor to Calgary the early part of the week.

Mr. and Mrs. W. S. Purvis are spending a week's holiday in Calgary.

Coleman War Memorial committee intend to hold a concert in the near future in aid of the fund.

The L.O.B.A. will hold a tea and pantry sale in aid of the Wood's Home in the K.P. hall on Sat. Oct. 1. Tea served from 2.30 to 5 p.m.

Mr. and Mrs. H. J. Appleton of Yeoford, Alberta, and two children, were visitors with Mr. and Mrs. H. C. McBurney for a few days.

Mrs. T. Johnson has returned from a three weeks holiday spent at Arrow Lakes with Mrs. Kay. The weather was very wet and of the three weeks there were only two days of sunshine.

Chas. Graham has been awarded the contract for the painting and decorating of a hotel at Brooks, which will take several weeks to complete. He expects to leave for there in about a week.

The picture, "Beau Geste," played at the Palace theatre on Friday and Saturday last, was seen by quite a large number and on Saturday night the house was filled to capacity.

Hubert W. Clark, formerly of the Hanna branch of the Bank of Commerce, has been transferred to Warner, Alta., and left for that place this week after visiting with his parents here.

The regular meeting of the Women's Institute will be held at the home of Mrs. J. A. Price, on Sept. 28. Roll call will be answered by "An Interesting Experience On My Holidays."

Save yourself the trouble of selecting Christmas cards at the last minute by choosing your cards now. You can order them with your name and address printed at The Journal office and take delivery at any time convenient prior to Christmas. Ask for sample book, or phone 209.

Sunday morning broke clear and was a welcome change after over a week's wet and cloudy weather. Many took advantage of the change to make trips by auto to nearby towns, while members of the Fernie and Michel tennis clubs came down to play against some of the local players.

The hunting season for ducks opened on Thursday last, but the weather was so wet that the roads were impassable on the prairies, so very few ventured out. On Monday a party from Coleman, including H. C. McBurney, G. R. Neil, Sid Short and H. J. Appleton, went out east of Pincher Creek, leaving the previous evening in order to be on hand for the first flight in the morning. They had a very enjoyable outing, the weather being particularly fine.

Rushing headlong into the raging waters when attracted by the cries of some children, Jack Rushton, employee of the Trites-Wood company, saved the 4-year-old daughter of Mrs. T. Brown, who had slipped into the swollen waters of Michel Creek, from drowning yesterday. Rushton arrived just in the nick of time and it was only after a hard struggle that the girl was revived.—From the "20 Years Ago" items in the Nelson Daily News.

Typewriter ribbons and carbon paper on sale at The Journal office, also counter check books.

The most efficient way in which to advertise articles for sale, lost or found, is by advertising in your local newspaper, instead of sticking up poorly written notices on pieces of paper on a telephone pole or in the post office. The Journal goes into the house and is read by people at their leisure.

A very enjoyable bridge party was held at the home of Mr. and Mrs. F. G. Graham on Tuesday evening in honor of Mrs. Jack Graham, who arrived in Coleman last week. There were eight tables in play, and the prizes were won by Mrs. Albert Short and Mrs. C. Oumette, Mrs. W. J. Burns taking the consolation prize. A very delightful lunch was served by the hostess, assisted by her daughter Dorothy, and the evening passed most pleasantly, terminating at about 12.30.

## Presentation of Certificates

The St. John Ambulance Association (Coleman Branch) will hold a concert and presentation of certificates for the last year members in the Knights of Pythias hall on Monday night, Sept. 26, at 8 p.m. Everybody is invited to attend.

## Counter Check Books

Merchants! Order your counter check books at The Journal office. Orders filled at the same price as if buying from the factory direct—Phone 209.

## CLASSIFIED ADVTs.

Advertisements under this heading, such as For Sale, To Rent, Lost, Found, etc., are charged at the rate of 10¢ per line, counting five words to the line, with a minimum charge of 35¢.

WANTED—Hear from owner good Farm for sale. Cash price, particulars. D. F. Bush, Minneapolis, Minn. 14c

FOR SALE—Five roomed plastered house, good location. This building is the best buy in town at the price. Would yield good return for investment. Apply to the Coleman Journal.

## SAVE YOUR EYES

Do you know that your vision is the most important of all your faculties?

Do you realize that, according to the foremost psychologists, the five senses rank in the following importance:

Sight	87 per cent
Sound	7 per cent
Touch	33 per cent
Smell	11 per cent
Taste	1 per cent

Why Neglect Your Eyes Any Longer?
